

Thermoplastic Elastomer Raw

**Different types of
thermoplastic elastomers
(TPV-TPE**

**Various types of
polyamide compounds**

**Different types of polymer
compounds base on
polypropylene**

**Thermoplastic
(polyurethanes (TPU**

Thermoplastic Elastomer materials (TPE-TPV) are widely used in many automotive parts

Home and Kitchen

Electrical industry

Bag and shoe industry

Health and medical supplies and equipment

Sports equipment

Thermoplastic Elastomer materials (TPE-TPV) are widely used in many automotive parts, the most important of which are:

Air inlet pipes

Clutch and brake pedal cover

Gear cover

Windows and doors sealing

Impact modifier in bumper compounds of vehicles

3D flooring inside the car

3D flooring inside the car

Spark plug wires of cars

Various types of dusters

Various types of dusters

Air inlet pipes

Fuel hoses and rubber hoses cover

Glass, lamp Sealing

Home and Kitchen

Different types of sealing washers in food storage containers

Flexible ice cube trays

Spice container lid

Soft touch handle of various kitchen appliances.

Flexible rubber parts in the body of the refrigerator, washing machine and other kitchen utensils

Seals for food preservation

Soft touch grip and functional elements for furniture

Soft touch grip and functional elements for furniture

Types of soft flooring

Window profile seals and door gaskets

Rubber parts of bath showers

Door seals

Electrical industry

Rubber caps and end caps

Industrial switches and plugs cover

Fuse box sealing

Anti-vibration and shock absorber parts

Mobile charger wire covers

USB charger sockets

Push-button panels

Remote control cover

Bag and shoe industry

TPE compound based on SBS used in shoe soles.

These products are offered in various colors (self-coloring) and with aromatic essence.

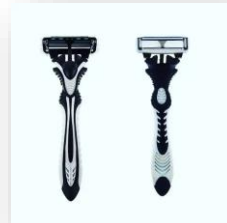

Health and medical supplies and equipment

Soft coating on toothbrush and hair brush handles

Types of children's finger toothbrushes

Soft cover for shaving blades

Children's jelly spoon

Breast milk pumps

Types of medical insoles for shoes

Types of medical insoles for shoes

Sports equipment

A variety of flexible bodybuilding circles and rings

Children's skate and scooter wheels

Soft and jelly balls

Covering of ping pong, badminton and tennis rackets

Sports mats

Goggles, hats and other swimming accessories.

Rubber wristbands and armbands
